The sun, the moon, and the stars live together as a cooperative. It is an attempt to convey the realisation that all phenomenon, all things, all beings, are intimately related to each other, intimately interconnected.

BuwayofshowingthatourancientculturewasconcernedwithreflectionsEco

We know that mankind has failed to take account of the intimate connections within the ecosystem, between himself and the world, arrogantly charging in with new found technological powers, destabilising intricate systems of ecological organisation, the complexity of which we are only just beginning to realise. This view is also found at the heart Ecological Perspectives in Buddhism the ecological perspective, particularly as influenced by systems theory, which recognises that everything in this world is woven into a subtle and intricate web of relationships.
