Full Text Available In Buenos Aires, at the areas more affected by water pollution, we observe a process of construction of claims in which different groups question the environmental inequality. One of the most important libraries of the seventeenth century was that of Don Lorenzo Ramirez de Prado, erudite and bibliophile, who collected in his Madrid home at least 8, volumes.

Theory, Research and Implications for Society | Psychopathy: However, its riparian forest is threatened by diminishing groundwater and surface water inputs, due to either changes in watershed characteristics such as changes in riparian and upland vegetation, or human activities such as regional groundwater pumping. Ello responde a la completa falta de fuentes y menciones existente en los archivos compostelanos.

Mediums and spirit-rappers, and roaring radicals: Full Text Available Resumen: The watershed comprises two smaller subareas, the Benson subarea and the Narrows-Redington subarea.
