This was a central point in Weber's theory. This order is now bound to the technical and economic conditions of machine production which today determine the lives of all the individuals who are born into this mechanism, not only those directly concerned with economic acquisition, with irresistible force. Reflexive actions are not of sociological interest, and as a result, Weber was not very concerned with psychology and mental processes. Retrieved 15 September Marxian analysis is not particularly concerned with individual human action within these structures and provides few guidelines concerning methods of analysis of social action and interaction. You can make it easier for us to review and, hopefully, publish your contribution by keeping a few points in mind. Retrieved 2 December Inamid the crumbling social order of European middle-class society, Weber began a series of important discussions with George and his close disciple the poet Friedrich Gundolf.
