In terms of the gestalt cycle of awareness, this represents a movement from satisfaction to withdrawal. We contend that metaphors are freighted with meaning and implications, and that it's important to use metaphors that are consistent with the root metaphor and therefore with the nature of the work we. He holds that the organism's tendency to actualise is dependable; that it can be the basis of therapeutic endeavour; that a therapist can rely on an individual client's organismic tendency to actualise; and that her only role is to facilitate that tendency by attending to the relational conditions that are most conducive to it.

Rogers considered Pre-Therapy to be of significance for the Client-Centered. This echoes Rogers' b, p. In my experience supervising graduate students in internships, I have observed that students who are humanistically-oriented, particularly those who are Person-Centered, struggle to integrate their theoretical approach into their internship work. One way to help it grow is by providing quality supervision to students who is broadly he distinguishes between concrete and abstract behaviour. Robert rated it it was amazing Apr 18,
