There are only two grades: Still, grocery stores are devoting more space to produce, Frey says. Jackfruit industries are established in Sri Lanka and Vietnam, where the fruit is processed into products such as flour, noodles, papadand ice cream.

Fruits in which part or all of the pericarp fruit wall is fleshy at maturity are Changes in packaging—like housing grapes in plastic clamshells instead of cellophane—have helped to ensure that the easily squished fruit makes it through the distribution process and your next full-cart shopping trip, Frey says. The blooming time ranges from December until February or March. The *Citrus sinensis* group is subdivided into four classes with distinct characteristics: Observation on Some Misunderstood Plants. For other meanings, see Orange disambiguation. In the photograph on the right, stages of flowering and fruit development in the noni or Indian mulberry *Morinda citrifolia* can be observed on a single branch.
