The conventional wisdom of the legal positivists held that laws could be impeccably drafted and even-handedly administered and still be hideously unjust: The danger is probably exaggerated, however, and those who make this argument would not for a moment countenance a similar argument in the sphere of national states. His first principle of the Rule of Law was:

But this may be misconceived when we are talking about states rather than individuals. On the other hand, it does have something in common with understandings of customary law and conceptions of the Rule of Law like that of Hayek that try to separate themselves from enactment and legislation. Because the heritage of this idea is so much a part of its modern application, a few highlights need to be mentioned.

Others, like Davis condemn this as an extravagant position, arguing that the most important demand of the Rule of Law is that people in positions of authority should exercise their power within a constraining framework of well-established public norms rather

than in an arbitrary, ad hoc or purely discretionary manner on the basis of their own preferences or ideology.
