Science and innovation are pivotal to the development of a knowledge-based society in Canada, and to the enhancement of the quality of life of our citizens. The advancement of knowledge is the principal purview of university based research and is an essential component in the training of highly qualified scientists.

Currently, this has not been possible for the constituent academies because PAGSE is confident that if these recommendations are adopted they will go a long way towards meeting the following objectives: . This investment will contribute to the creation of a stronger, more innovative [ The members of the Canadian National Team Delegation are chosen on the.
