Indeed, depending on the architecture, the connectivity and the number of struts
Assuming domain B has a larger K value, it is prone to be
deformed plastically at an early stage. A global trend is
visible. Investigations at the scale of individual struts.
The modeling technique is further detailed by Favre et al. Address Address is
lattices designed by setting the x, y coordinates of the B
point. The research procedure is usually iterated by trial and
error; small alterations are operated on a well-known

structure, and the benefits of each design are presented one by one.
